HIGOLD®

RIVA COLLECTION

RIVA

OUTDOOR

RIVA

DESIGN OF **CLAUDIO BELLINI®**

As a member of Higold, I am very happy to spend a good period of my life to work with you.

Higold relies on the top quality to promote the business development, and the top quality is achieved by the people and the management system. First of all, people are the manufacturers of products. Only excellent employees can produce top quality products. Secondly, the management system, especailly for quality management, is an effective guarantee for standardized and large-scale production of products. Therefore, the company will only grow when its employees grow, and the growth of individual employees is fundamentally consistent with the development direction of the company. Innovation is the eternal source of the company's development. In order to expand the enterprise living space, in order to open up more broad development for individuals, we need to be full of passion, maintain the source power of innovation, improve work efficiency, improve the quality of work, keeping surpass ourselves always.

In the background of a company who has the core competitiveness by improving the management innovation and the process reengineering comprehensively and who has enough opportunities and space for sustainable development and strives to create a level playing field, as long as you think and work hard, learn modestly and keep improving, you will be evaluated fairly eventually. More important thing, this learning mindset itself is a key to success.

Team work spirit and strong professionalism are the source of the inexhaustible strength for a company. You will obtain better play and achieve greater achievements only when you integrate your talents into a team. Based on the premise of a common goal and overall image, the company advocates the development of individuality and provides broad development space for employees. To win, you must first win yourself. We Only can surpass ourselves and our rivals by continuous learning and self-reflection. "Change" is our eternal theme, of course, "change" is also an experiment, whatever successes or failures, we will accommodate them with a broad mind. Standing at the starting line of the new century, let's arm ourselves with a new idea and inherit the essence of our advantageous culture. Let's extend the organization culture idea which is more beneficial to the enterprise development, and Let's build the dream team of the new century.

Finally, as a representative of the company's executives, what I care more about is the feelings of employees and whether they can grow and acheive their personal dreams in our company. At the same time, I sincerely thank you for what you have done for the company and your efforts as a member of this team, I wish you a happy work in the future!

CLAUDIO BELLINI® × RIVA

CLAUDIO BELLINI® is a Milan based multidisciplinary design studio founded by Claudio Bellini is built on an open-minded and innovative perspective, respectful to design heritage, specialized in product, furniture, and interior design since 1996. Integrating different disciplines gives the studio the privilege to provide long-term consultancy to clients by advising on graphic design, architecture, CMF, and brand identity.

Studio's capability of analyzing the complex dynamics of foreign markets has led CLAUDIO BELLINI® design studio to be recognized all around the world as one of the most influential European design practices.

Today, the studio continues evolving by enhancing the creativity with the support of a talented multinational team through their complementary skills.

In a game of solids and voids, of lights and shadows, the RIVA collection is born. It takes inspiration from the Moorish style of Andalusian architecture and it is characterised by its severe and essential lines. The empty spaces, created by the particular making of the yarn, bring to mind the arches of the Palace of Carlos V in Granada. A touch of Spain in your house.

The texture of natural teak is delicate and warm.

Super thick cushions with high density foams for an extra soft seating experience.

RIVA

DESIGN OF **CLAUDIO BELLINI®**

The leisurely and elegant weaving outlines the ever-changing light and shadow.

An exciting blast inspriation from the Sixties. This collection is a clear reference to the 60s world where harmony and calm were essential. Convenience and comfort, stability, lightness and adaptability are the main features of this outdoor furniture. This is LEO collection, characterised by the decisive sign of the armrests, which represent its distinctive feature such as the essentiality of the lines. The curved armrest has a strong character and gives a sense of lightness. The backrest with woven rope brings nature and richness to this collection.

CLAUDIO BELLINI® × LEO

The backrest with woven rope brings nature and richness to this collection.

You will feel asleep cradled in the arms of VASCA collection. It takes inspiration from the long summer days, when you are so tired that the only thing you would do is to be rocked by the light of the moon. The weavings of the furnitures' structure remind you of the cord of an hammock childhood. It leaves in your soul the sensation of light-heartedness, well-being and levity, perfect mix at the end of a demanding day. Its rounded shapes and soft cushions convey a harmony and sense of calm. The wooden parts bring back a warm and gentle atmosphere.

HIGOLD®

Love the excellent life

NOLA

NEW COLLECTIONS 2024

As a member of Higold, I am very happy to spend a good period of my life to work with you.

Higold relies on the top quality to promote the business development, and the top quality is achieved by the people and the management system. First of all, people are the manufacturers of products. Only excellent employees can produce top quality products. Secondly, the management system, especailly for quality management, is an effective guarantee for standardized and large-scale production of products. Therefore, the company will only grow when its employees grow, and the growth of individual employees is fundamentally consistent with the development direction of the company. Innovation is the eternal source of the company's development. In order to expand the enterprise living space, in order to open up more broad development for individuals, we need to be full of passion, maintain the source power of innovation, improve work efficiency, improve the quality of work, keeping surpass ourselves always.

In the background of a company who has the core competitiveness by improving the management innovation and the process reengineering comprehensively and who has enough opportunities and space for sustainable development and strives to create a level playing field, as long as you think and work hard, learn modestly and keep improving, you will be evaluated fairly eventually. More important thing, this learning mindset itself is a key to success.

Team work spirit and strong professionalism are the source of the inexhaustible strength for a company. You will obtain better play and achieve greater achievements only when you integrate your talents into a team. Based on the premise of a common goal and overall image, the company advocates the development of individuality and provides broad development space for employees. To win, you must first win yourself. We Only can surpass ourselves and our rivals by continuous learning and self-reflection. "Change" is our eternal theme, of course, "change" is also an experiment, whatever successes or failures, we will accommodate them with a broad mind. Standing at the starting line of the new century, let's arm ourselves with a new idea and inherit the essence of our advantageous culture. Let's extend the organization culture idea which is more beneficial to the enterprise development, and Let's build the dream team of the new century.

Finally, as a representative of the company's executives, what I care more about is the feelings of employees and whether they can grow and acheive their personal dreams in our company. At the same time, I sincerely thank you for what you have done for the company and your efforts as a member of this team, I wish you a happy work in the future!

-- Ou Jinfeng, chairman of Higold Group

Simplicity and sobriety in the shapes and colors influence the furniture outdoor NOLA collection. It takes inspiration from the minimalism of the architecture. "Less is more" is a sort of contemporary philosophy where there aren't unlimited resources in the world and man makes things with what he finds and recycles. NOLA collection is a thought for the future, all about saving the planet and minimizing materials. The armrest becomes an extra element where you can comfortably place any type of object.This collection contains everything essential you ask for in one piece.
